Term 1

Year 3 will be starting the new school year with the question:

Who are we?

We will be travelling back in time to when some of the first humans walked the Earth in the Stone Age, Bronze Age and Iron Age. As part of our exploration into what life was like two million years ago, we will be making our own cave paintings, cooking Stone Age stew and trying to figure out why Stonehenge was built.

This questions also gives each child the opportunity to look at their own family tree and find out more about the local community. We will be investigating how our community has changed over time and how we can contribute to its future.

In Science, we will be looking at what makes up our human body, focusing on our skeleton and muscles. We will be learning about healthy eating and the different ways to keep our body healthy. This fits in perfectly with our PE as we will be exploring all the amazing movements our body can do.

Over the busy term, we will also be drawing self-portraits in the style of different artists and taking a more detailed look at Christianity. Now they are in Key Stage 2, Woodpeckers will also begin learning Spanish.

This is just the start of a busy and exciting year!

I hope you and your family enjoy a relaxing summer holiday and I look forward to meeting you in September!

Miss Nelson
