## Term 3

Welcome back! I hope that you and your family had an enjoyable Christmas and New Year. This term, we will be continuing our topic of robots by looking at different robots and machines used today and the children will be creating their own model of a robot.

Later in the term, we will be looking at nutrition and healthy eating. This will include examining the skeleton of the human body and a visit from Warburtons when we will be making some delicious sandwiches.

As well as these two fantastic topics, we will also be learning more about the Winter Olympics which start in February. The children will be able to learn more about the countries participating and the sports that will be played.

If you wish to discuss about your child's learning, please come and speak to me.

Miss Nelson

Any additional support at home is greatly appreciated, especially with the following:

- **Spellings** for the whole term will be sent home and we will also learn these in class.
- This term, we will be particularly focusing on our **division facts** in maths.
- **Brain Builders** are taken home on a Friday and returned on Wednesdays. There is an expectation that these are completed to the child's best ability and I have enjoyed reading the work children have completed at home in terms 1 and 2.

PE will continue to take place on a Monday morning and Thursday afternoon. Please check that your child's clothing is labelled.

### Dates for your diary

Wednesday 7<sup>th</sup> February - Sandwich Making  
(your child will show you what they have learnt about healthy sandwiches)

Friday 9<sup>th</sup> February - Inset Day
