

Chaffinch Class

Term 2 - November 2020

Welcome back!

We hope you have had an enjoyable break. Year 6 have been busy continuing with their Central Idea into how people engage with the Arts. Last term, they completed great research into the life of the artist Picasso and the impact that his artistic styles had on people and the world. We created watercolour paintings inspired by the artist Salvador Dali. We wrote letters to our link school in Malawi to find out how they do art in school, whether it's drawing or dance.

Our final line of inquiry that we're completing at the moment is into the influence that people can have with their art. With this in mind, **Year 6 have come up with a brilliant community art idea** created with plenty of rocks and some resources kindly donated from Wicke's!

Keep an eye on the empty square space behind the railings at our pedestrian gate next week!

Brain Builders will be set weekly on Google Classroom for Year 6 to complete by the following Wednesday. **Spellings** will be posted here too.

If you have any difficulty accessing these at home, please contact the office as soon as possible.

Year 6 Team
Teacher: Mrs Mehigan
LSA: Mrs Moore
Thursday
& Friday: Mrs Bennoson

Online

We are incredibly lucky to have **Chromebooks per pupil** in Year 6 and access to these really enhances what we already offer at Oaks. They enable our pupils to have more ownership of their research, learning and presentation of work.

Your children have been putting their new skills to great use in **designing and creating the new parent newsletters** using Chromebooks. The new newsletter is already having such a **positive impact** on the school community. Well done Year 6 !

Please talk with your child about how they chat and engage with others online.

We talk about the **digital footprint** in school and it's important they understand that what gets said or shared online stays there.
